

Cancer control in China

Shanghai, China | Feb 21–23, 2025

The Lancet Summit: cancer control in China will bring together a stellar faculty of approximately 40 speakers for a major multi-track conference to tackle the challenges posed by the major cancers in China through a lens of cancer control.

A contemporary programme will include:

- Cross-cutting plenary sessions
- Three parallel tracks covering lung, gastrointestinal, and breast cancer
- A unique half-day symposium—organised in association with CReDO—dedicated to the importance, design, and critical appraisal of clinical trials
- Oral abstract presentations
- Poster sessions
- Exhibition area

Abstracts are invited by **Sept 23, 2024**.

A selection of the best abstracts will be invited for oral presentation, the rest will be displayed as posters. All accepted abstracts will be published in *The Lancet Regional Health—Western Pacific*.
